Best of the Best

Atrium Health's Levine Children's Hospital celebrates its 12th anniversary in 2019. In just over a decade, the hospital has grown to include more than 30 pediatric specialties and has received national recognition by U.S. News & World Report as one of "America's Best Children's Hospitals." Levine Children's Hospital is also home to the Ricky Hendrick Centers for Intensive Care, which supports pediatric intensive care and cardiovascular surgery patients. This world class hospital provides a depth of expertise unmatched in this region.

A Community Partner

Levine Children's Hospital ensures excellence in children's healthcare by building partnerships between caregivers, families, and the community it serves. These partnerships developed long before the hospital opened in 2007. Generous individuals, corporations, and foundations stepped forward to help build a new hospital, close to home. This support continues today – through voluntarism and generous contributions – underscoring the community's ongoing commitment to the healthy future of our children.
