KEEP POUNDING 5K

MAY 31-JUNE 5, 2021 | VIRTUAL 5K | IT TAKES A TEAM

One Team. One Goal.

Keep Pounding with Atrium Health's Levine Cancer Institute and Levine Children's Hospital in the fight against cancer. Since 2011, the Keep Pounding 5K has raised over \$1 million for pediatric and adult cancer research and patient services at Atrium Health. Last year, despite the challenges we all faced during the pandemic, the 2020 virtual Keep Pounding 5K gained the support of more than 1,050 virtual runners and numerous fundraising teams who banded together to pound out cancer. Together, we can have an even greater impact on cancer in 2021.

Run or walk the 5K, or sign up as a "virtual" fundraiser at KeepPounding5K.org today!

Uniting as One to Pound Out Cancer

Created by the Carolina Panthers and Atrium Health Foundation in 2004, the Keep Pounding Fund supports cancer research efforts throughout Atrium Health. Since its inception, the Keep Pounding Fund has raised more than \$3 million to help support cancer programs at Atrium Health's Levine Cancer Institute and Levine Children's Hospital. You can help make life better for a patient who is facing cancer, spread awareness, and contribute to vital research.

Your support enables both Levine Cancer Institute and Levine Children's Hospital to offer new Phase I and Phase II clinical trials. Thanks to these trials, families have access to the most advanced treatments available where it matters most—close to home.

The mantra "Keep Pounding" was first spoken by the late Panthers linebacker and coach Sam Mills Jr. and has since become the collective battle cry of countless Panther fans across the country who continue to band together in the fight to cure cancer.

Donations to the Keep Pounding 5K (and year-round, to the Keep Pounding Fund) are used to support:

- Clinical research (Phase I & II cancer research trials)
- Patient navigators
- Wellness and survivorship programs, education, and outreach
- State-of-the-art technology and equipment (Improving cancer detection and treatment)
